

CERTIFICATION OF ORDINANCE

City of Park Rapids }
Hubbard County }
State of Minnesota }

I hereby certify that I have compared the within instrument with the original instrument,

ORDINANCE NO. 496

**PARK RAPIDS MUNICIPAL AIRPORT
ZONING ORDINANCE
AMENDING ORDINANCE NO. 209**

Approved by Park Rapids-Hubbard County Joint Airport Zoning Board on:

January 24th, 2008

now on file in my office, and that it is a true and correct copy of the same and of the whole thereof, and that the attached copy of the filing thereon.

Filed on date 02/06/08

(seal)

City Clerk Therzie DeVik

PARK RAPIDS MUNICIPAL AIRPORT ZONING ORDINANCE

CREATED BY

PARK RAPIDS – HUBBARD COUNTY

JOINT AIRPORT ZONING BOARD

AN ORDINANCE REGULATING AND RESTRICTING THE HEIGHT OF STRUCTURES AND OBJECTS OF NATURAL GROWTH, AND OTHERWISE REGULATING THE USE OF PROPERTY, IN THE VICINITY OF THE PARK RAPIDS MUNICIPAL AIRPORT BY CREATING THE APPROPRIATE ZONES AND ESTABLISHING THE BOUNDARIES THEREOF; PROVIDING FOR CHANGES IN THE RESTRICTIONS AND BOUNDARIES OF SUCH ZONES; DEFINING CERTAIN TERMS USED HEREIN; REFERRING TO THE PARK RAPIDS MUNICIPAL AIRPORT ZONING MAP WHICH IS INCORPORATED IN AND MADE A PART OF THIS ORDINANCE; PROVIDING FOR ENFORCEMENT; ESTABLISHING A BOARD OF ADJUSTMENT; AND IMPOSING PENALTIES.

IT IS HEREBY ORDAINED BY THE PARK RAPIDS – HUBBARD COUNTY JOINT AIRPORT ZONING BOARD PURSUANT TO THE AUTHORITY CONFERRED BY MINNESOTA STATUTES SECTION 360.061 THROUGH 360.074, AS FOLLOWS:

SECTION I: PURPOSE AND AUTHORITY

The Park Rapids – Hubbard County Joint Airport Zoning Board, created and established by action of the City Council of the City of Park Rapids pursuant to the provisions and authority of Minnesota Statutes Section 360.063, hereby finds and declares that:

- A. The Park Rapids Municipal Airport is an essential public facility that provides an important public transportation need and serves a public good.
- B. An airport hazard endangers the lives and property of users of the Park Rapids Municipal Airport, and property or occupants of land in its vicinity; and also if of the obstructive type, in effect reduces the size of the area available for the landing, takeoff, and maneuvering of aircraft, thus tending to destroy or impair the utility of said Airport and the public investment therein.
- C. The creation or establishment of an airport hazard is a public nuisance and an injury to the region served by the Park Rapids Municipal Airport.
- D. For the protection of the public health, safety, order, convenience, prosperity, and general welfare, and for the promotion of the most appropriate use of land, it is necessary to prevent the creation or establishment of airport hazards.
- E. The prevention of these airport hazards should be accomplished, to the extent legally possible, by the exercise of the police power without compensation.
- F. The prevention of the creation or establishment of airport hazards, and the elimination, removal, alteration, mitigation, or marking and lighting of existing airport hazards are public purposes for which political subdivisions may raise and expend public funds.

SECTION II: SHORT TITLE

This Ordinance shall be known as the “Park Rapids Municipal Airport Zoning Ordinance.” Those sections of land affected by this Ordinance are indicated in Exhibit “A”, which is attached to this Ordinance.

SECTION III: DEFINITIONS

As used in this Ordinance, unless the context otherwise requires:

"AIR SPACE ZONE" means the Primary Air Space Zone, the Horizontal Air Space Zone, the Conical Air Space Zone, the Approach Air Space Zone, the Precision Instrument Approach Air Space Zone, or the Transitional Zone established in Section IV of this Ordinance.

"AIRPORT" means the Park Rapids Municipal Airport located in Sections 26, 27, 34, 35 and 36, Todd Township, including those portions as annexed by the City of Park Rapids, and Section 1 and 2 of Straight River Township, all in Hubbard County, Minnesota.

"AIRPORT ELEVATION" means the established elevation of the highest point on the usable landing area which elevation is established to be 1446 feet above mean sea level.

"AIRPORT HAZARD" means any structure, tree, or use of land which obstructs the air space required for, or is otherwise hazardous to, the flight of aircraft in landing or taking off at the airport; and any use of land which is hazardous to persons or property because of its proximity to the airport.

"AIRPORT SPONSOR" means the municipality or authority of the airport allowed to apply for and receive grants.

"BOARD OF ADJUSTMENT" means the City of Park Rapids Planning Commission.

"BUILDING PLOT" means the footprint of a structure within the site.

"COMMISSIONER" means the Commissioner of the Minnesota Department of Transportation.

"CONFORMING USE" means any structure, tree, object of natural growth, or use of land that complies with all the applicable provisions of this Ordinance or any amendment to this Ordinance.

“DWELLING” means any building or portion thereof designed or used as a residence or sleeping place of one or more persons.

“ESTABLISHED RESIDENTIAL NEIGHBORHOOD IN A BUILT-UP URBAN AREA” (ERN - BUUA) means an area which, if it existed on or before January 1, 1978, (for low density structures and lots) shall be considered a conforming use that shall not be prohibited except as provided below in Subsection V B 5, EXEMPTIONS - ESTABLISHED RESIDENTIAL NEIGHBORHOODS.

“HEIGHT,” for the purpose of determining the height limits in all zones set forth in this Ordinance and shown on the Official Zoning Map, height shall be measured at the highest point of a structure, tree, or other object of natural growth, measured from the mean sea level elevation unless otherwise specified.

“INDUSTRIAL, WHOLESALE TRADE AND STORAGE USES” means a use category including the following use types:

- (a) Industrial development or uses involved in the research, design, manufacturing, processing, fabrication, packaging, or assembly of goods. Natural, man-made, raw, secondary, or partially completed materials may be used. Products may be finished or semi-finished and are generally made for the wholesale market, for transfer to other plants, or to order for firms or consumers. Goods are generally not displayed or sold on site, but if so, they are a subordinate part of sales (typically 10% or less of the total gross floor area). Relatively few customers come to the site.

Industrial, manufacturing, wholesale trade, and warehouse/ storage uses including uses that produce goods from raw or finished materials, uses that distribute goods in large quantities to primarily wholesale customers, or provide for storage or warehousing of goods, either in enclosed buildings or outdoors. Few customers, especially the general public, come to the site. Accessory activities may include sales, offices, parking, and storage.

“ISOLATED LOW DENSITY RESIDENTIAL LOT” – See definition of “Low Density Residential Lot” below.

“LAND DISPOSAL FACILITY” means any tract or parcel of land, including any constructed facility, at which solid waste is disposed of, in or on the land.

"LANDING AREA" means the area of the airport used for the landing, taking off, or taxiing of aircraft.

"LOW DENSITY RESIDENTIAL STRUCTURE" means a single-family or two-family dwelling or home that was legally in existence on January 1, 1978.

"LOW DENSITY RESIDENTIAL LOT" means a single lot located in an area which is zoned for primarily single-family or two-family residential uses, and in which the predominant existing land use is such type of residences, and where the lot was legally in existence on January 1, 1978.

"NONCONFORMING USE" means any pre-existing, legally established structure, tree, object of natural growth, or use of land that does not comply with one or more provisions of this Ordinance or any amendment to this Ordinance.

"NON-PRECISION INSTRUMENT RUNWAY" means a runway with a straight-in instrument approach procedure using either ground-based or satellite-based air navigation facilities.

"OBSTRUCTION" means any structure, tree, plant or other object of natural growth that penetrates an imaginary surface.

"PERSON" means an individual, firm, partnership, corporation, company, association, joint stock association, or body politic, and includes a trustee, receiver, assignee, administrator, executor, guardian, or other representative.

"PLANNED," as used in this Ordinance, refers only to those proposed future airport developments that are so indicated on a planning document having the approval of the Federal Aviation Administration, Minnesota Department of Transportation Office of Aeronautics, and the City of Park Rapids.

“PRACTICAL DIFFICULTY OR UNNECESSARY HARDSHIP” means the property in question cannot be put to a reasonable use if used under conditions allowed by this Ordinance, and the plight of the landowner is due to circumstances unique to the property not created by the landowner, and the variance, if granted, will not be contrary to the purpose and intent of this Ordinance. Economic considerations alone shall not constitute a “practical difficulty or unnecessary hardship” if reasonable use for the property exists under the terms of this Ordinance.

“PRECISION INSTRUMENT RUNWAY” means a runway with an instrument approach procedure utilizing an Instrument Landing System (ILS), a Microwave Landing System (MLS), a Precision Approach Radar (PAR), a Transponder Landing System (TLS), or a satellite-based system capable of operating to the same level of precision guidance provided by the other indicated systems.

“PUBLIC ASSEMBLY USE” means a structure or outdoor facility where concentrations of people gather for purposes such as deliberation, education, shopping, business, entertainment, amusement, sporting events, or similar activities, but excluding air shows. “Public assembly use” does not include places where people congregate for relatively short periods of time, such as parking lots and bus stops, or uses approved by the FAA in an adopted airport master plan.

“PUBLIC, CIVIC AND INSTITUTIONAL USES” means a use category that includes uses of a public, quasi-public, nonprofit, or charitable nature generally providing a local service to the people of the community. Generally, they provide the service on-site or have employees at the site on a regular basis. The service is ongoing, not just for special events. This use category includes the following use types:

- (a) Community centers or facilities that have membership provisions or are open to the general public to join at any time (for instance, any senior citizen could join a senior center).
- (b) Public assembly uses, such as private lodges, museums, libraries, clubs or halls, educational institutions, and religious assembly uses are also included in this category.
- (c) Facilities for the provision of public services, including governmental offices and public safety and emergency response services, such as police, fire and ambulance services. Such facilities often need to be located in or near the area the service is provided.

“RESIDENTIAL AND ACCOMMODATION USES” means a use category that includes the following use types:

- (a) Residential uses that provide living accommodations, including sleeping, eating, cooking and sanitary facilities, to one or more persons, and where tenancies typically last longer than thirty (30) days.
- (b) Accommodation uses characterized by visitor-serving facilities that provide temporary lodging in guest rooms or guest units, for compensation, and with an average length of stay of less than 30 days. Accessory uses may include pools and other recreational facilities for the exclusive use of guests, limited storage, restaurants, bars, meeting facilities, and offices.

“RUNWAY” means any existing or planned paved surface or turf covered area of the airport which is specifically designated and used or planned to be used for the landing and/or taking off of aircraft.

“SAFETY ZONE” means the land use zones (Zones A, B, and C) established by Subsection V A. of this Ordinance.

“SLOPE” means an incline from the horizontal expressed in an arithmetic ratio of horizontal magnitude to vertical magnitude.

Slope = 3:1 = 3 feet horizontal to 1 foot vertical

“SPECIAL-PURPOSE AIRPORT” means a public airport, as defined in this Section, intended for use by aircraft issued an FAA special airworthiness certificate in the light sport category.

“STRUCTURE” means an object anchored, constructed, attached, erected, gathered, located, placed, piled, or installed by man, either on the ground or in or over a body of water, either moveable or immovable, and either temporary or permanent. The term “structure” includes, but is not limited to, antennae, buildings, cranes, fences, overhead transmission lines, patios and decks, man-made ponds, signs and sign structures, smokestacks, towers, utility poles, wires, and anything attached to any of the foregoing either temporarily or permanently.

“SUBSTANTIALLY ALTER OR ALTERED” means an addition to the footprint of a building or structure, or an addition to the existing maximum height of a building or structure, or a change in use of land, building, or structure.

“TRAVERSE WAYS,” for the purpose of determining height limits as set forth in this Ordinance, shall be increased in height by 17 feet for interstate highways; 15 feet for all other public roadways; 10 feet or the height of the highest mobile object that would normally traverse the road, whichever is greater, for private roads; 23 feet for railroads; and for waterways and all other traverse ways not previously mentioned, an amount equal to the height of the highest mobile object that would normally traverse it.

“TREE” means any object of natural growth.

“UTILITY RUNWAY” means a runway that is constructed for and intended to be used by propeller-driven aircraft of 12,500 pounds maximum gross weight, and which runway is less than 4,900 feet in length.

“VARIANCE” means any modification or variation of this Ordinance’s provisions where it is determined that, by reason of exceptional circumstances, the strict enforcement of the Ordinance provision(s) would cause “practical difficulty or unnecessary hardship,” as defined in this Section.

“VISUAL RUNWAY” means a runway intended solely for the operation of aircraft using visual approach procedures, with no straight-in instrument approach procedure and no instrument designation indicated on an approved planning document.

“WATER IMPOUNDMENT” means wastewater treatment settling ponds, surface mining ponds, detention and retention ponds, artificial lakes and ponds, and similar water features. A new water impoundment includes an expansion of an existing water impoundment except where such expansion was previously authorized by land use action approved prior to the effective date of this Ordinance.

“WATER SURFACES” for the purpose of this ordinance, shall have the same meaning as land for the establishment of protected zones.

“WILDLIFE ATTRACTANTS” means any human-made structure, land-use practice, or human-made or natural geographic feature that can attract or sustain hazardous wildlife within the landing or departure airspace or the airport’s air operations area. These attractants include, but are not limited to, architectural features, landscaping, waste disposal sites, wastewater treatment facilities, agricultural or aquaculture activities, surface mining, wetlands, or water surfaces.

“WILDLIFE HAZARDS” means species of wildlife (birds, mammals, reptiles), including feral animals and domesticated animals not under control, that are associated with aircraft strike problems, are capable of causing structural damage to airport facilities, or act as attractants to other wildlife that pose a strike hazard.

“ZONE A” means a safety zone including all land in that portion of the approach zones of a runway that extends outward from the end of primary surface, as defined in Subsection V A. of this Ordinance, a distance equal to two-thirds ($\frac{2}{3}$ ’s) of the planned length of the runway.

“ZONE B” means a safety zone including all land in that portion of the approach zones of a runway that extends outward from the end of Zone A, a distance equal to one-third ($\frac{1}{3}$) of the planned length of the runway.

“ZONE C” means a safety zone including all land enclosed within the perimeter of the horizontal air space zone, as defined in Subsection V A. of this Ordinance, and which is not included in Zone A or Zone B.

“ZONING ADMINISTRATOR” means the public official in each affected municipality as set forth in Section XI of this Ordinance.

SECTION IV: AIR SPACE OBSTRUCTION ZONING

A. AIR SPACE ZONES: In order to carry out the purpose of this Ordinance, as set forth in Section I above, the following air space zones are hereby established: Primary Zone, Horizontal Zone, Conical Zone, Approach Zone, Precision Instrument Approach Zone, and Transitional Zone, and whose locations and dimensions are given below.

1. PRIMARY AIR SPACE ZONE

- a. All that land that lies directly under an imaginary primary surface longitudinally centered on a runway and extending 200 feet beyond each end of planned Runways 13/31 and 18/36.
- b. The width of the primary surface is:
 - (1) Visual Runways and Non-Precision Instrument Runways:
500 feet for Runway 18/36.
 - (2) Precision Instrument Runways:
1,000 feet for Runway 13/31.
- c. The elevation of any point on the primary surface is the same as the elevation of the nearest point on the runway centerline.

2. HORIZONTAL ZONE

- a. All that land which lies directly under an imaginary horizontal surface 150 feet above the planned airport elevation, or a height of 1596 feet above mean sea level.
- b. The perimeter of the horizontal surface is constructed by swinging arcs of specified radii from the center of each end of the primary surface of each runway and connecting the adjacent arcs by lines tangent to those arcs. The radius of each arc is:
 - (1) 10,000 feet for Runways 13 & 31.
 - (2) 5,000 feet for Runways 18 & 36.
- c. When a 5,000-foot arc is encompassed by tangents connecting two adjacent 10,000-foot arcs, the 5,000-foot arc shall be disregarded in the construction of the perimeter of the horizontal surface.

3. CONICAL ZONE: All that land which lies directly under an imaginary conical surface extending upward and outward from the periphery of the horizontal surface at a slope of 20:1 for a horizontal distance of 4,000 feet as measured outward from the periphery of the horizontal surface.

4. APPROACH ZONE for all runways except those with precision instrument approach:

- a. All that land which lies directly under an imaginary approach surface longitudinally centered on the extended centerline at each end of a runway.

b. The inner edge of the approach surface is located 200 feet from the end of the runway and is the same width and elevation as, and coincides with, the end of the primary surface.

c. The approach surface inclines upward and outward at a slope of:
40:1 for Runways 18 & 36.

d. The approach surface expands uniformly to a width of:
3,500 feet for Runways 18 & 36 at a distance of 10,000 feet, then continues at the same rate of divergence to the periphery of the conical surface.

5. PRECISION INSTRUMENT APPROACH ZONE: All that land which lies directly under an imaginary precision instrument approach surface longitudinally centered on the extended centerline at each end of Runway 13/31, a precision instrument runway. The inner edge of the precision instrument approach surface is at the same width and elevation as, and coincides with, the end of the primary surface. The precision instrument approach surface inclines upward and outward at a slope of 50:1 for a horizontal distance of 10,000 feet expanding uniformly to a width of 4,000 feet, then continues upward and outward for an additional horizontal distance of 40,000 feet at a slope of 40:1, expanding uniformly to an ultimate width of 16,000 feet.
6. TRANSITIONAL ZONE: All that land which lies directly under an imaginary surface extending upward and outward at right angles to the runway centerline and centerline extended at a slope of 7:1 from the sides of the primary surfaces and from the sides of the approach surfaces until they intersect the horizontal surface or the conical surface. Transitional surfaces for those portions of the precision instrument approach surface which project through and beyond the limits of the conical surface, extend a distance of 5,000 feet measured horizontally from the edge of the precision instrument approach surface and at right angles to the extended precision instrument runway centerline.

- B. HEIGHT RESTRICTIONS: Except as otherwise provided in this Ordinance, and except as necessary and incidental to airport operations, no structure or tree shall be constructed, altered, maintained, or allowed to grow in any air space zone created in Subsection IV A so as to project above any of the imaginary air space surfaces described in said Subsection IV A hereof. Where an area is covered by more than one height limitation, the more restrictive limitation shall prevail.

- C. **BOUNDARY LIMITATIONS:** The air space obstruction height zoning restrictions set forth in this section shall apply for a distance not to exceed one and one half miles beyond the perimeter of the airport boundary and in that portion of an airport hazard area under the approach zone for a distance not exceeding two miles from the airport boundary.

SECTION V: LAND USE SAFETY ZONING

- A. **SAFETY ZONE BOUNDARIES:** In order to carry out the purpose of this Ordinance, as set forth above, to restrict those uses which may be hazardous to the operational safety of aircraft operating to and from the Park Rapids Municipal Airport, and, furthermore, to limit population and building density in the runway approach areas, thereby creating sufficient open space to protect life and property in case of an accident, there are hereby created and established the following land use safety zones:

1. **SAFETY ZONE A** (for Runways 18, 31, and 36): All land in that portion of an approach zones of a runway, as defined in Subsection IV. A. 4., which extends outward from the end of the primary surface a distance equal to two-thirds ($2/3$'s) of the runway length. That distance shall be, as illustrated in the Park Rapids Municipal Airport Zoning Map:
 - a. 2,733 feet for planned Runway 18/36.
 - b. 4,333 feet for planned Runway 31.
2. **SAFETY ZONE A** (for Runway 13): all land included in a trapezoid beginning 200 feet from the northwest end of existing 5500-foot Runway 13/31 (runway Station 75+00). This trapezoid shall have an inner width of 1000-feet, a length of 5333-feet, and an outer width of 2600-feet, as illustrated in the Park Rapids Airport Zoning Map.
3. **SAFETY ZONE B:** All land in that portion of an approach zone of a runway, as defined in Subsection IV. A. 4., extending outward from Safety Zone A, a distance equal to one-third ($1/3$) of the length of the runway defined for that particular runway end. That distance shall be, as illustrated in the Park Rapids Municipal Airport Zoning Map:
 - a. 1,367 feet for planned Runway 18/36.
 - b. 2,167 feet for planned Runway 13/31.
4. **SAFETY ZONE C:** All land which is enclosed within the perimeter of the horizontal zone, as defined in Subsection IV A hereof, and which is not included in Safety Zone A or Safety Zone B.

5. EXCEPTIONS – ESTABLISHED RESIDENTIAL NEIGHBORHOODS: Isolated, low-density residential building lots and low-density residential structures are listed in Subsection V A 5. below.
6. EXCEPTIONS – ISOLATED, LOW DENSITY RESIDENTIAL BUILDING LOTS AND LOW DENSITY RESIDENTIAL STRUCTURES: The properties in the aforesaid Established Residential Neighborhoods and which are listed below are hereby designated as either isolated, low-density residential building lots, or low-density residential structures. A low-density residential structure shall mean a single-family or two-family home, and an isolated, low-density residential building lot shall mean a single lot located in an area which is zoned for single-family or two-family residences and in which the prominent land use is such type of residence. All land uses exempt under this subsection shall be deemed conforming uses for purposes of this Ordinance's administration and enforcement. These low-density uses which were in existence on January 1, 1978, are subject to special provisions set forth in Subsection V B 5, EXEMPTIONS, below:

	<u>Parcel ID</u>	<u>Street Address</u>	<u>Acres</u>	<u>Year Built</u>	<u>Note</u>
a.	32.26.00200	905 8 th St W	1.06	1961

m.	27.27.00400	12939 State 34	2.	1944	
n.	27.27.00500	13155 State 34	2.	1950	

Note (1): Built in an established residential neighborhood.

B. USE RESTRICTIONS:

1. GENERAL: Subject at all times to the height restrictions set forth in Subsection IV B, no use shall be made of any land in any of the safety zones defined in Subsection V A which creates or causes interference with the operations of radio or electronic facilities on the airport or with radio or electronic communications between the airport and aircraft, make it difficult for pilots to distinguish between airport lights and other lights, results in glare in the eyes of pilots using the airport, impairs visibility in the vicinity of the airport, or otherwise endangers the landing, taking off, or maneuvering of aircraft.
2. SAFETY ZONE A: Subject at all times to the height restrictions set forth in Subsection IV B and to the general restrictions contained in Subsection V B 1, areas designated as Zone A shall contain no buildings, temporary structures, exposed transmission lines, or other similar above-ground land use structural hazards, and shall be restricted to those uses which will not create, attract, or bring together an assembly of persons thereon. Permitted uses may include, but are not limited to, such uses as agriculture (seasonal crops), horticulture, animal husbandry, raising of livestock, wildlife habitat, light outdoor recreation (non-spectator), cemeteries, and automobile parking without light standards or other above ground structures.
3. SAFETY ZONE B: Subject at all times to the height restrictions set forth in Subsection IV B, and to the general restrictions contained in Subsection V B 1, areas designated as Zone B shall be restricted in use as follows:
 - a. Each use shall be on a site whose area shall not be less than three acres.
 - b. Each use shall not create, attract, or bring together a site population that would exceed 15 times that of the site acreage
 - c. Each site shall have no more than one building plot upon which any number of structures may be erected.
 - d. A building plot shall be a single, uniform, and non-contrived area, whose shape is uncomplicated and whose area shall not exceed the following minimum ratios with respect to the total site area:

Site Area at least (Acres)	But Less Than (Acres)	Ratio of Site Area to Bldg. Plot Area	Building Plot Area (sq. ft.)	Max. Site Population (15 persons/Acre)
3	4	12:1	10,900	45
4	6	10:1	17,400	60
6	10	8:1	32,600	90
10	20	6:1	72,500	150
20	and up	4:1	218,000	300

- e. The following uses are specifically prohibited in Zone B: Churches, hospitals, schools, theaters, stadiums, hotels, motels, trailer courts, campgrounds, and other places of frequent public or semi-public assembly.
4. SAFETY ZONE C: Zone C is subject only to height restrictions set forth in Subsection V B, and to the general restrictions contained in Subsection V B 1.
5. EXEMPTIONS – ESTABLISHED RESIDENTIAL NEIGHBORHOODS
- a. Land uses which existed as of July 2, 1979, in the Established Residential Neighborhoods set forth in Subsection V A 4 above, and as shown on the zoning map, are subject to the height restrictions of Subsection IV B and the general restrictions of Subsection V B 1. Land uses which come into existence after July 2, 1979, are treated as though they were not in a designated Established Residential Neighborhood and are subject to the Zone A or Zone B restrictions as the case may be.
- b. Land uses in Established Residential Neighborhoods which violate any of the following restrictions are prohibited as safety hazards and must be acquired, altered or removed at public expense. Those conditions are as follows:
- The following land uses if they exist in Safety Zones A or B and in an ERN-BUUA are considered by the Commissioner to constitute airport safety hazards so severe, either to persons on the ground or to the air-traveling public, or both, that they must be prohibited under local airport zoning ordinances;
- (1) Any structure which a person or persons customarily use as a principal residence and which is located entirely inside Safety Zone A within 1000 feet of the end of the primary zone;
 - (2) Any structure which a person or persons customarily use as a principal residence and which is located entirely within Safety Zone A or B and which penetrates an imaginary approach surface as defined by Subsection IV A;

- (3) Any land use in Safety Zone A or B which violates any of the following standards:
- (i) the land use must not create or cause interference with the operation of radio or electronic facilities on the airport or with radio or electronic communication between the airport and aircraft;
 - (ii) the land use must not make it difficult for pilots to distinguish between airport lights and other lights;
 - (iii) the land use must not result in glare in the eyes of pilots using the airport or impair visibility in the vicinity of the airport.
- (4) Any isolated residential building lot zoned for single-family or two-family residences on which any structure, if built, would be prohibited by subparagraphs b.(1)(a), (b) or (c) above. An "isolated" residential building lot is one located in an area in which the predominant land use is single-family or two-family residential structures; and
- (5) Any other land use which presents, in the opinion of the Commissioner, a material danger to the landing, taking off, or maneuvering of aircraft or to the safety of persons on the ground. In making such a determination, the Commissioner shall consider the following factors:
- (i) possibility that the land use may contribute to or cause a collision of two or more aircraft or an aircraft and some other object;
 - (ii) possibility that the land use may, in case of an aircraft accident, cause an explosion, fire, or the release of harmful or noxious fumes, gases, or substances;
 - (iii) tendency of the land use to increase the number of persons that would be injured in case of an aircraft accident;
 - (iv) effect of the land use on availability of clear areas for emergency landings;
 - (v) flight patterns around the airport, the extent of use of the runway in question, the type of aircraft using the airport, whether the runways are lighted, whether the airport is controlled, and other similar factors.

C. **BOUNDARY LIMITATIONS:** The land use zoning restrictions set forth in this section shall apply for a distance not to exceed one mile beyond the perimeter of the airport boundary and in that portion of an airport hazard area under the approach zone for a distance not exceeding two miles from the airport boundary.

SECTION VI: AIRPORT ZONING MAP

The several zones herein established are shown on the Park Rapids Municipal Airport Zoning Map consisting of 3 sheets, prepared by TKDA Engineers, and dated March 19, 2007, attached hereto and made a part hereof, which map, together with such amendments thereto as may from time to time be made, and all notations, references, elevations, data, zone boundaries, and other information thereon, shall be and the same is hereby adopted as part of Ordinance 209, dated 1978.

SECTION VII: NONCONFORMING USES

Regulations are not retroactive. The regulations prescribed by this Ordinance shall not be construed to require the removal, lowering, or other changes or alteration of any structure or tree not conforming to the regulations as of the effective date of Ordinance 209, dated 1978, or otherwise interfere with the continuance of any nonconforming use. Nothing herein contained shall require any change in the construction, alteration, or intended use of any structure, the construction or alteration of which was begun prior to the effective date of this Ordinance, and is diligently prosecuted and completed within two years thereof.

SECTION VIII: PERMITS

A. **FUTURE USES:** Except as specifically provided in Paragraphs 1 and 2 hereunder, no material change shall be made in the use of land and no structure shall be erected, altered, or otherwise established in any zone hereby created unless a permit therefore shall have been applied for and granted by the Zoning Administrator, hereinafter, provided for. Each application for a permit shall indicate the purpose for which the permit is desired, with sufficient particularity to permit it to conform to the regulations herein prescribed. If such determination is in the affirmative, the permit shall be granted.

1. However, a permit for a tree or structure of less than 75 feet of vertical height above the ground shall not be required in the horizontal and conical zones or in any approach and transitional zones beyond a horizontal distance of 4,200 feet from each end of the runway except when such tree or structure, because of terrain, land contour, or topographic features, would extend the height or land use limit prescribed for the respective zone.

2. Nothing contained in this foregoing exception shall be construed as permitting or intending to permit any construction, alteration, or growth of any structure or tree in excess of any of the height limitations established by this ordinance as set forth in SECTION IV and the land use limitations set forth in SECTION V.

- B. **EXISTING USES:** Before any existing use or structure may be replaced, substantially altered or repaired, or rebuilt within any zone established herein, a permit must be secured authorizing such replacement, change, or repair. No permit shall be granted that would allow the establishment or creation of an airport hazard or permit a nonconforming use, structure, or tree to become a greater hazard to air navigation than it was on the effective date of this Ordinance or any amendments thereto, or than it is when the application for a permit is made. Except as indicated, all applications for such a permit shall be granted.
- C. **NONCONFORMING USES ABANDONED OR DESTROYED:** Whenever the Zoning Administrator determines that a nonconforming structure or tree has been abandoned or more than 80% torn down, deteriorated, or decayed, no permit shall be granted that would allow such structure or tree to exceed the applicable height limit or otherwise deviate from the zoning regulations. Whether application is made for a permit under this paragraph or not, the Zoning Administrator may order the owner of the abandoned or partially destroyed nonconforming structure, at his own expense, to lower, remove, reconstruct, or equip the same in the manner necessary to conform to the provisions of this Ordinance. In the event the owner of the nonconforming structure shall neglect or refuse to comply with such order for ten days after receipt of written notice of such order, the Zoning Administrator may, by appropriate legal action, proceed to have the abandoned or partially destroyed nonconforming structure lowered, removed, reconstructed, or equipped and assess the cost and expense thereof against the land on which the structure is or was located. Unless such an assessment is paid within ninety days from the service of notice thereof on the owner of the land, the sum shall bear interest at the rate of eight percent per annum from the date the cost and expense is incurred until paid, and shall be collected in the same manner as are general taxes.

SECTION IX: VARIANCES

Any person desiring to erect or increase the height of any structure, permit the growth of any tree, or use his property not in accordance with the regulations prescribed in this Ordinance may apply to the Board of Adjustment, hereinafter provided for, for a variance from such regulations. If a person submits an application for a variance by certified mail to the members of the Board and the Board fails to grant or deny the variance within sixty (60) days after the last member receives the application, the variance shall be deemed to be granted by the Board.

The Zoning Administrator or the Board of Adjustment may request review of a variance application by the Mn/DOT Airport Zoning Administrator prior to making a decision.

When the variance is granted by reason of the failure of the Board to act on the variance, the person receiving the variance shall notify the Board and the Commissioner, by certified mail, that the variance has been granted. The applicant shall include a copy of the original application for the variance with this notice to the Commissioner. The variance shall be effective sixty days after this notice is received by the Commissioner subject to any action taken by the Commissioner pursuant to Minnesota Statutes Section 360.063, Subdivision 6a. Such variances shall be allowed where it is duly found that a literal application or enforcement of the regulations would result in practical difficulty or unnecessary hardship, and relief granted would not be contrary to the public interest but do substantial justice and be in accordance with the spirit of this Ordinance provided any variance so allowed may be subject to any reasonable conditions that the Board or Commissioner may deem necessary to effectuate the purpose of this Ordinance.

SECTION X: HAZARD MARKING AND LIGHTING

- A. **NONCONFORMING USES:** The owner of any nonconforming structure or tree is hereby required to permit the installation, operation, and maintenance thereon of such markers and lights as shall be deemed necessary by the Zoning Administrator, to indicate to the operators of aircraft in the vicinity of the airport the presence of such airport hazards. Such markers and lights shall be installed, operated, and maintained at the expense of the City of Park Rapids.

- B. **PERMITS AND VARIANCES:** Any permit or variance deemed advisable to effectuate the purpose of this Ordinance and be reasonable in the circumstances, and granted by the Zoning Administrator or Board, shall require the owner of the structure or tree in question, at his own expense, to install, operate, and maintain thereon such markers and lights as may be necessary to indicate to pilots the presence of an airport hazard.

SECTION XI: AIRPORT ZONING ADMINISTRATOR

The City of Park Rapids Planner shall serve as the Airport Zoning Administrator. It shall be the duty of the Zoning Administrator to administer and enforce the regulations prescribed herein. Applications for permits and variances shall be made to the Zoning Administrator upon a form furnished by the Administrator. Permit applications shall be promptly considered and granted or denied by them in accordance with the regulations prescribed herein. Variance applications shall be forthwith transmitted by the Zoning Administrator for action by the Board, hereinafter provided for.

SECTION XII: BOARD OF ADJUSTMENT

- A. **ESTABLISHMENT:** The City of Park Rapids Planning Commission shall serve as the airport's Board of Adjustment.
- B. **POWERS:** The Board of Adjustment shall have and exercise the following powers:
1. Hear and decide appeals from any order, requirement, decision, or determination made by administrator in the enforcement of this Ordinance.
 2. Hear and decide special exceptions to the terms of this Ordinance upon which such Board of Adjustment under such regulations may be required to pass.
 3. Hear and decide specific variances.
- C. **PROCEDURES:**
1. The Board of Adjustment shall adopt rules for its governance and procedure in harmony with the provisions of this Ordinance. Meetings of the Board of Adjustment shall be held at the call of the chairperson and at such other times as the Board of Adjustment may determine. The chairperson, or in his absence the acting chairperson, may administer oaths and compel the attendance of witnesses. All hearings of the Board of Adjustment

shall be public. The Board of Adjustment shall keep minutes of its proceedings showing the vote of each member upon each question or, if absent or failing to vote, indicating such fact, and shall keep records of its examinations and other official actions, all of which shall immediately be filed in the office of the Zoning Administrator and shall be a public record.

2. The Board of Adjustment shall make written findings of facts and conclusions of law giving the facts upon which it acted and its legal conclusions from such facts in reversing, affirming, or modifying any order, requirement, decision, or determination which comes before it under the provisions of this ordinance.
3. The concurring vote of a majority of the members of the Board of Adjustment shall be sufficient to reverse any order, requirement, decision, or determination of the Zoning Administrator or to decide in favor of the applicant on any matter upon which it is required to pass under this Ordinance, or to effect any variation in this Ordinance.

SECTION XIII: APPEALS

- A. Any person aggrieved, or any taxpayer affected by any decision of the Zoning Administrator made in his administration of this Ordinance may appeal to the Board of Adjustment. Such appeals may also be made by any governing body of a municipality, county, or airport zoning board, which is of the opinion that a decision of the Zoning Administrator is an improper application of this Ordinance as it concerns such governing body or board.
- B. All appeals hereunder must be commenced within 30 days of the Zoning Administrator's decision, by filing with the Zoning Administrator a notice of appeal specifying the grounds thereof. The Zoning Administrator shall forthwith transmit to the Board of Adjustment all the papers constituting the record upon which the action appealed from was taken. In addition, any person aggrieved, or any taxpayer affected by any decisions of the Zoning Administrator made in his administration of this Ordinance who desires to appeal such decision shall submit an application for a variance, by certified mail, to the members of the Board of Adjustment in the manner set forth in Minnesota Statutes Section 360.068, Subdivision 2.

- C. An appeal shall stay all proceedings in furtherance of the action appealed from, unless the Zoning Administrator certifies to the Board of Adjustment after the notice of appeal has been filed with it, that by reason of the facts stated in the certificate a stay would, in his opinion, cause imminent peril to life or property. In such case, proceedings shall not be stayed except by order of the Board of Adjustment on notice to the Zoning Administrator and on due cause shown.
- D. The Board of Adjustment shall fix a reasonable time for hearing appeals, give public notice and due notice to the parties in interest, and decide the same within a reasonable time. Upon the hearing, any party may appear in person, by agent, or by attorney.
- E. The Board of Adjustment may, in conformity with the provisions of this ordinance, reverse or affirm, in whole or in part, or modify the order, requirement, decision or determination appealed from and may make such order, requirement, decision or determination, as may be appropriate under the circumstances, and to that end shall have all the powers of the Zoning Administrator.

SECTION XIV: JUDICIAL REVIEW

Any person aggrieved, or any taxpayer affected by any decision of the Board of Adjustment, or any governing body of a municipality, county, or airport zoning board, which is of the opinion that a decision of the Board of Adjustment is illegal may present to the District Court, Ninth Judicial District, Hubbard County, Minnesota a verified petition setting forth that the decision or action is illegal, in whole or in part, and specifying the grounds of the illegality. Such petition shall be presented to the court within 30 days after the decision is filed in the office of the Board of Adjustment. The petitioner must exhaust the remedies provided in this Ordinance before availing himself of the right to petition a court as provided by this section.

SECTION XV: PENALTIES

Every person who shall construct, establish, substantially change, alter or repair any existing structure of use, or permit the growth of any tree without having complied with the provision of this Ordinance or who, having been granted a permit or variance under the provisions of this Ordinance, shall construct, establish, substantially change or substantially alter or repair any

existing growth or structure or permit the growth of any tree, except as permitted by such permit or variance, shall be guilty of a misdemeanor and shall be punished within the limits of misdemeanor penalties. Each day a violation continues to exist shall constitute a separate offense. The Airport Zoning Administrator may enforce all provisions of this Ordinance through such proceedings for injustice relief and other relief as may be proper under the laws of Minnesota Statutes Section 360.073 and other applicable law.

SECTION XVI: CONFLICTS

Where there exists a conflict between any of the regulations or limitations prescribed in this Ordinance and any other regulations applicable to the same area, whether the conflict be with respect to the height of structures or trees, the use of land, or any other matter, the more stringent limitation or regulation shall govern and prevail.

SECTION XVII: SEVERABILITY

- A. In any case in which the provision of this Ordinance, although generally reasonable, is held by a court to interfere with the use or enjoyment of a particular structure or parcel of land to such an extent, or to be so onerous in their application to such a structure or parcel of land, as to constitute a taking or deprivation of that property in violation of the constitution of this state or the constitution of the United States, such holding shall not affect the application of this Ordinance as to other structures and parcels of land, and to this end the provisions of this Ordinance are declared to be severable.
- B. Should any section or provision of this Ordinance be declared by the courts to be unconstitutional or invalid, such decision shall not affect the validity of the Ordinance as a whole or any part thereof other than the parts so declared to be unconstitutional or invalid.

SECTION XVIII: EFFECTIVE DATE

This ordinance shall take effect on the 19th day of February, 2008. Copies thereof shall be filed with the Commissioner through the Office of Aeronautics, State of Minnesota, and County Recorder, Hubbard County, Minnesota.

SECTION XIX: REPEALER

Upon passage and publication the Park Rapids Municipal Airport Zoning Ordinance dated May 30, 1974 and any amendments thereto is hereby amended and replaced in its entirety.

Passed and adopted after public hearing by the Park Rapids – Hubbard County Joint Airport Zoning Board this 24th day of January, 2008.
